Most Significant Contributions

| | |
|---------|--|
| 2016/9 | Wilkins-Laflamme, Sarah. 2016. "The Changing Religious Cleavage in Canadians' Voting Behaviour." <i>Canadian Journal of Political Science</i> 49(3): 499-518. Single-authored peer-reviewed article in one of the leading Canadian journals in political science. The paper contains key findings on the relationship between religion and voting in Canada, and how this relationship has evolved between 1965 and 2011. |
| 2014/9 | Wilkins-Laflamme, Sarah. 2014. "Towards Religious Polarization? Time Effects on Religious Commitment in US, UK and Canadian Regions." <i>Sociology of Religion</i> 75(2): 284-308. Single-authored peer-reviewed article in one of the leading journals in the subfield of sociology of religion. My second most cited article according to Google Scholar. This is my first publication in which I explore the religious polarization framework (with empirical examples). |
| 2015/12 | Wilkins-Laflamme, Sarah. 2015. "How Unreligious are the Religious 'Nones'? Religious Dynamics of the Unaffiliated in Canada." <i>Canadian Journal of Sociology</i> 40(4): 477-500. Single-authored peer-reviewed academic article in one of the leading Canadian sociology journals. There has been a lot of media and general interest in the findings of this paper on the regional and temporal trends of the religiously unaffiliated in Canada. |

- 2011/12 Meunier, E.-Martin and Sarah Wilkins-Laflamme. 2011. "Sécularisation, catholicisme et transformation du régime de religiosité au Québec. Étude comparative avec le catholicisme au Canada (1968-2007)." *Recherches sociographiques* 52(3): 683-729. Co-authored peer-reviewed article in one of the leading French language sociology journals. My most cited article according to Google Scholar. Many academics in Quebec who study religion know my name and research from this article on temporal and regional trends of Catholic, Anglican and United Church indicators.
- 2016/12 Wilkins-Laflamme, Sarah. 2016. "The Remaining Core: A Fresh Look at Religiosity Trends in Great Britain." *British Journal of Sociology* 67(4): 632-654. Single-authored peer-reviewed article in one of the leading journals in the field of sociology. In this paper, I apply my religious polarization framework to religiosity trends in the British context, spanning from 1985 to 2012.
